

## **D.I.S.L. AUTOMATIC – SYSTEM REBOOT LYRICS**

[chorus]

this is a system reboot! control alt delete  
we are taking back the planet from the hands of the elite  
we cut through the propaganda, we unveil the deceit  
we debunk false information, we expose dirty schemes  
we attack like antivirus to eradicate the greed  
never waiver from our mission to awaken all our people  
we multiply by millions yelling out what we believe in  
truth, knowledge, liberty. equality and freedom!

[synthesis]

something is missin' inside the system that we live in  
how we're programmed to believe that our life's only mission is  
go to school, get a job, raise some kids, buy a house  
fancy cars, shop at malls, put it all on credit cards  
they promote consumerism with their ads on television  
tellin' us what we should buy and how it is we should be livin'  
all the things we should be gettin' to be a good citizen  
it seems the only thing we need to do is pay their dividends  
and they'll say we're maladjusted 'cause we don't fit in their structure  
but their structure's only function is to hold us under  
keep the truth undercover, make you want more than another  
when they breed materialism they pin us against our brothers  
the basis of their system is to keep the people locked  
inside a cycle of addiction tryin' to make it to the top  
of the pyramid constructed by the global elite  
it's time we reboot the system  
control alt delete!

[aspirit]

this system is corrupted shutting it down is our cause  
imploring with the public to pull the plug from the power source  
but us fools are stuck to the coward's course  
caught in a storm of cloudy thoughts bound to conform  
and cower to lousy laws it's how we're taught  
spending credit yet we can't afford to house the poor  
with astounding amounts found in accounts for war  
and if you're on my level i'm sure you've found the flaws/floors  
or saw the towers fall when n.w.o. was proudly born  
but if bowing down is now the norm  
then i suggest we question the agenda's of all authorities now in force  
if corporations fought for nature like a flower's th-rns  
instead of domination and profit conquering nations with bombings

sponsoring hate is an honest way to escape from the knowledge that  
slavery is upon us but the power's yours!  
we need you to listen, don't sleep through the vision  
as the beat booms, we speak truth  
to reboot the system!

[disl automatic]

we are trapped inside a system  
that relies on the division  
of the m-sses so they caste us into cl-sses that we live in  
we judge each other based on social status' we're given  
no one cares about character, all that matters is your income  
corporatism is designed to blind the human vision  
so consumerism has become the people's new religion  
t.v. programming 'em so they can't see through the fiction  
when you try to speak the truth they view it as a superst-tion  
patriarchy's dominated us from the beginnin'  
of society, it's time that we empower our women  
united we're winning hit 'em with knowledge that we're spittin'  
i ain't quittin', if i die i'll be a martyr not a victim  
companies profit by locking people up in prison  
our government is under the elitist supervision  
we speak truth so listen  
to this deep rooted wisdom  
we will fight for our freedom 'til we reboot the system!
